Personal Details

Nationality: Pakistani
Visa status: Student visa (Allowed to work 20hrs/week)
Language: English (fluent)

Relevant Skills

Cloud (Databricks, Snowflake SQL, AWS S3, AWS EC2, AWS RedShift)
Web Stack (React.js/Redux, Javascript, Typescript, MUI, SASS/SCSS, Tailwind)
Data Analysis (SQL, Python, Pandas, Matplotlib, Seaborn)
Machine Learning and AI (Scikit-learn, PyTorch, MLlib)

Work Experience

Habib Bank AG Zurich

Software Engineer

Oct 2024 - Mar 2025
Karachi, Pakistan

- Developing and integrating features for Habib Bank AG Zurich's proprietary software in JAVA
- Led the development of an ETL pipeline for the wealth management module, automating the ingestion, transformation, and validation of customer data, resulting in improved data accuracy
- Provided application support by regularly handling and resolving support tickets across various banking modules, primarily involving JAVA and SQL contributions.
- Collaborated with cross-functional teams to troubleshoot issues, implement fixes, and ensure timely delivery of solutions.

Codex

Front-End Developer

Jun 2023 - Aug 2023
Karachi, Pakistan

- Developed a React Native Android messaging app with real-time chat, friend list management, and last-seen functionality

Education

Universität Hildesheim

M.Sc Data Analytics

April - Present
Hildesheim, Germany

Big Data Analytics: Multi-threading, Distribute Machine learning, Scalable data storage and ETL
Advanced Machine Learning: Decision Tree models, CNNs, RNNs, K-Means clustering
Distributed Data Analytics Lab: Python, PySpark workloads, TensorFlow, PyTorch

Institute of Business Administration

B.Sc. Computer Science

Sept 2020 - Aug 2024
Karachi, Pakistan

Courses: Calculus I, Calculus II, Linear Algebra, Artificial Intelligence,
Bachelor Thesis: "*Enhancing Cyber Security through Machine Learning*"
GPA: 2.9 (American 4.0 scale)

Extra-curricular

Public Speaking: Represented high-school and university for inter-city MUN debates and local public speaking events.
Leadership: Team captain of high-school cricket team, organized cricket tournaments at the University for 400+ students.
Curiosity-driven Exploration: Learn cloud and data technologies (Databricks, Snowflake), practicing LeetCode questions
